# The Real Key to Effective Revenue Management

Updated: Feb 16

There's a crucial aspect of [revenue management](#) that many services companies might be overlooking. If only leadership is involved in the revenue management strategy...you could be missing more than you think.

In this video, Kymberli and Matt highlight how the best revenue management strategy should involve the entire team. Leadership needs to create an environment where employees feel safe and able to tell them when anything happens that throws off current budgets.
